Biography:

Kim Eccles, P.E. is a Senior Transportation Engineer at VHB. She has nearly ten years experience in highway safety research and specializes in intersection safety and treatment evaluation. She is a licensed professional engineer in Virginia and has a BS and an MS in Civil Engineering. She was one of the co-authors for the National Evaluation of Red Light Cameras and was responsible for working with the participating agencies to collect the necessary data for the study. She manages VHB's Raleigh, North Carolina office.
